GUIDELINES FOR REPRODUCING ARCHIVAL MATERIALS

GENERAL GUIDELINES: The following guidelines apply to all copies of archival materials.

Copies are provided to individual patrons for the purpose of study only, unless otherwise specified. The publication in any medium of materials that are the property of Caltech is prohibited without prior written permission from the Caltech Archives.

No complete collection may be copied.

The Caltech Archives reserves the right to review all copy requests and to withhold permission to copy if, in the professional judgment of the archivist or curator, copying would endanger the material; would violate copyright law; would violate donor-imposed or institutional restrictions; or would impose undue burden upon the Archives’ staff and other patrons.

Materials available for consultation online, such as through the Archives’ online digital collections, will not be reproduced for study purposes or made available for digital copying.

COPYRIGHT INFORMATION:

COPYRIGHT NOTICE: The copyright law of the United States (Title 17, U.S.C.) governs the making of photocopies or other reproductions of copyrighted materials. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be “used for any purpose other than private study, scholarship, or research.” If a user makes a request for, or later uses, a photocopy or reproductions in excess of “fair use”, that user may be liable for copyright infringement.
