## MODULE 6

### Earthquakes and Volcanoes:

#### Sir William Hamilton's Report to the Royal Society, 1776-1779

##### Note on sources:

With one exception, all quotations of Sir William Hamilton's writings are taken from the text of *Campi Phlegraei* or from the version of the volcano letters originally printed in the Royal Society's *Philosophical Transactions*. The original eighteenth-century spellings and punctuation have been retained. The quotation from the letter to Sir Horace Mann is taken from David Constantine's biography (see below).
